

**Body:** The body is white with borders of them being grey. This is the body code:

**background:** #fff;

box-shadow: 0 0 2px rgba(0, 0, 0, 0.06);

color: #545454;

font-family: "Helvetica Neue", Helvetica, Arial, sans-serif;

font-size: 16px;

line-height: 1.5;

margin: 0 auto;

max-width: 800px;

padding: 2em 2em 4em;

**Paragraphs:** Many of the paragraphs should be normal and the color of the font set to default and the color as well.

Header: I want the headers to eventually go into a navigation bar but for now I want it to look like the

**Nav:** the nav links will allow for people to do the many things to navigate the website and they will be black. Heres the code:

```
a {  
  
    color: #000000;  
  
}
```

**Footer:** N/A

**Divs:** For the footer. This will allow for you to go to other pages or refresh to the beginning.
